

TRAVEL ADVICE AND IMMUNISATIONS

WE NEED INFORMATION ABOUT YOUR ITINERARY BEFORE YOU VISIT US

At least 6 weeks before travel, please [e-mail the Nurses at MGP](#) (or bring to reception) your travel plan including:-

- Date of departure
- Countries (and cities or provinces) you are visiting in order, including number days to be spent there, type of travel, accommodation etc.
- Names and age of all travelers
- Best mode of contact (Phone/e-mail) regarding our recommendations
- Details/Dates of any previous Travel vaccines (e.g. Hepatitis/Typhoid/Dukoral) you have had if they were given at another clinic

Please note there is a fee for this advisory service - see below

WE WILL RECOMMEND VACCINATIONS/MEDICATIONS

Our nurses will contact you with recommendations for vaccination, whether a doctor's visit is also recommended (e.g. if malaria tablets are required or more complex issues need discussion) and arrange a time for this to happen.

*YELLOW FEVER vaccine is not available at this practice.
If this is necessary we will recommend you attend a travel medicine clinic.*

FEES

- A travel advisory fee of approximately \$50 will usually be charged for this service; depending on the time required for the Nurse to review your itinerary & medical records and make recommendations, whether or not you choose to attend for any vaccinations.
- A standard nurse consultation fee of \$20 and a vaccination administration fee of \$10, plus the costs of the vaccinations, will be charged at the nurse visit.
- Plus a standard GP visit fee applies, should you need to see your doctor.
